# Introduction

“Trans Gulf Co. for Contracting”, was established in 2013 in Iraq. Today, with over Seven years of fulfilling experience, the Company is a well-recognized provider of a wide range of services spanning General Contracting, General Construction, Interior and Renovation, Building Maintenance, Projects Execution and Development, and Finishing works.

As a Company, TGCC prides itself in employing the best available workforce, which includes a team of highly qualified and experienced professionals who work as one to achieve 100% clients’ satisfaction by completing every project in the specified time frame without compromising on quality and safety. At TGCC, we adopt each of our client’s goals as our own, and place our clients’ interests above all.

Every project, however big or small is treated with the same assurance of offering only the best levels of service by TGCC . We work as a member of the Client’s team to ensure there is complete conformity with their vision, design and set standards to deliver the project without sacrificing our high standards and our focus on quality and customer service.

“Building projects is what we do; building strong relationships with our clients is what we excel at”.

*Hazim Adnan – CEO*

# VISION

## Philosophy

By keeping up with the times and carefully responding to the demands of an ever-changing business environment, we take on challenges that are one step ahead of present-day needs. As a result, we strive to enhance our corporate value and the stability of our management, ultimately contributing to the realization of an affluent society.

## Management Policy

As an enterprise that manages logistics services in a comprehensive manner, we strive to upgrade our value as a global enterprise, by reinforcing our equipment and systems and cultivating human resources. Ultimately, we aspire to enhance our corporate value and fulfill our corporate social responsibilities

# Manage Risk and Ensure Safety

Trans Gulf has insurance coverage to protect our company, employees, and client companies. A safe jobsite is a productive jobsite. Our coverage is based on our experience and history of controlling risk that results in a low loss rate.
