

Saqr Quraish

FOR SECURITY SERVICES

INTRODUCTION

The Public Constructions and the Public affairs are subject to hazards due to the lack of appropriate procedures to protect them by means of insurance and guarding acts. This may result in great negative effects and huge influences such as the loss of lives and properties. Dangers ought to be avoided by all means by the public and governments. This has pushed the government to license the private sector to establish security companies; companies that meet the technical and scientific requisites of such

activities. These companies have played a vital role in protecting the souls and possessions of the people. Saqr quraish for security protection aims at ensuring the social peace among the people of the country. It is in full harmony with the instructions and prospects of the Iraqi Government. It is participating in creating the comprehensive development of the country and increasing its competitive capacity as such

OUR COMPANY

It is one of the biggest Security Companies in Iraq. It introduces several services such as: consultation, threat detection, responding to crises, logistic support, personal protection, training and managing dangers.

Saqr Qureish Co. was established many years ago due to the urgent need of the Iraqi market for professional security companies that protect Iraqi constructions and individuals inside the State of Iraq. We also work hard to enhance the National Security. One of our greatest goals is the creation of secure environment to all our clients. We are interested in providing every possible means to satisfy our clients by making use of the creative ideas, while supplying internationally accepted solutions to protect corresponding to their expectations. We try to find the suitable solutions to any arising problems along with introducing the most effective and standard solutions via a

specialized team that provides the secure solutions to the works of our clients. This team consists of members who are very well-trained persons to perform all types of security operations.

Our team members own the capacity to tackle the most critical situations cleverly, strictly and safely. In Saqr Qureish Co., we are aware of the importance and danger of our work; therefore, we work hard to provide the best services to our clients. Saqr Qureish has excellent experience in the field of security: We had been protection and guarding many political characters and businessmen. We also worked in guarding and protecting the governmental constructions and the security constructions as well. We also secured and protected the movement of delegations and goods inside Iraq and in all Governorates

We aim at enabling our clients to perform their works via our featured irleas, and by introoucing t r u s t w o r t h y consultations and high-quality services. We have e s t a b l i s h e d g o o d r e p u t a t i o n which we work hard to keep and w h i c h a t t r a c t s t h e f e a t u r e d p e o p l e and work to developing them and keeping them as true members. We also aim at introducing security and commercial solutions In all governorates of Iraq. We are also interested in giving courses in security practices and in selecting the nominees that can be appointed in sec urity works and developing the capac ity of the

youngsters in the field of guarding. We do that by adopting a colleccion of security programs that concentrate on ensuring that our clients are not subjected to any dangers of any kind whatever. We train them to be ready to work in hard and c o m p l i c a t e d environments and ready to face the dang e r s courageously. We were the first to start a program of TOT in Iraq, as we have the best local trainers who work c o n t i n u o u s l y renewing their security information so as to react posifively in any case.

OUR PROSPECT

The Company plans to be the first company in the country; well-known for its services in the field of security and in reacting positively in the crises and comprehensive hazards all over Iraq.

We work hard to bring the best cadres that run security affairs at the highest levels through the highly-trained team members. While Our services cover newly emerging markets, which are very complicated and very dangerous situated in troubled areas, we still provide efficient guards, trained outside Iraq, in order to supply the best services. Our scope of work will cover many economic sectors to provide security and peace to our clients. Our work will extend to

new diplomatic sectors, defense, gas establishments and the infrastructure of oil and oil industry. All our work is to be performed professional people

OUR SUCCESS

The success achieved by our clients is positively reflected on our performance. That is why we are keen to meet the needs of our clients and we work hard to satisfy them. We work hard to pave the way to secure and peaceful work environment in troubled countries such as Iraq. We are CLAW DNS Upload Ched 20 Total 1000 Gable to provide the best security solutions in the fields of diplomat, gas and oil, infrastructure and defense sector. We provide static and moving

protection services such as the check points, watching entries, and the technical security systems. We analyze the weak points of the 127001 192.168.1.1 Download Chet 101 Connecbity client and follow up and supply the safety requirements such as equipment and body guards in addition to developing data of security programs. Our trainers are ready to give hand in preparing professional guards.

I. Money Moving and Securing:

Saqr Qureish is considered the pioneer Company in this field. The Company provides high-standard services in the field of security and guard duty, and transferring money by using modern technology and good training means, and introducing the best services to the clients. The Company utilizes control apparatuses like:

Modern communication means.
Follow-up and watching systems.
Very well-trained and armed guards to escort the vehicles that transfer the money.

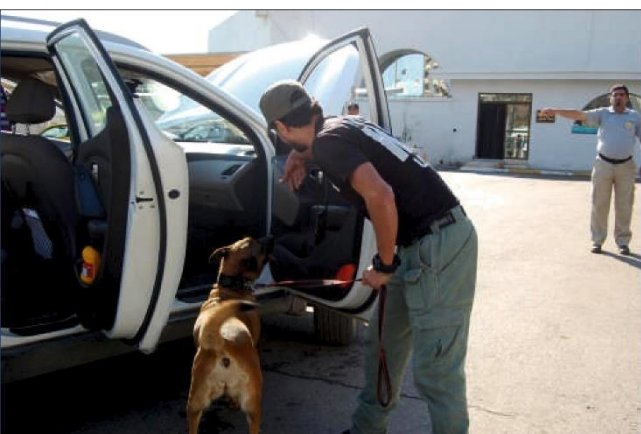

Control systems in the doors that check entry and exit.

Security cameras.

Detecting systems to detect metals and explosives.

Early warning systems to detect fire and thefts.

Early warning systems to detect fire and thefts.

TRAINING PROGRAMS

The Company usually adopts a training program for all the people who want to be a professional guard in the **Company**. The trainees become psychologically and physically prepared to carry out any security mission's. They are trained to fight fire as they are trained as civil defense team.

They are trained to use all types of assisting tools such as: (Surveillance cameras, control rooms, electronic gates, metal detectors, explosive detection devices, in addition to setting facilities security plans, securing and guarding all public and private facilities, banks and hotels.

3. Testing individuals at the end of each training.
4. Classifying individuals according to their capacities.
5. Making sure of individual biography in recruitment to identify their validity or not.
6. Guaranteeing everyone's social insurance.
7. Supervision plan to follow up the progress of work and to solve all notes with individuals and agents.

Conducting a comprehensive monthly assessment for all Company's sectors including sectors of (processes, operations, tasks, supervision, marketing and accountings).

9. Performance Follow-up

The Company allocates supervisors to visit sites 24 hours a day, connected to the Company operations room in addition to the warning station where all joint warning devices are to be controlled 24 hours a

day. The shift team makes sure that the warning is authentic. In case there is an authentic warning, the shift team contacts the nearest Security point, and give them the address, and follow up

with them until the arrival of the official security body .

10. Security Officers

The Company makes available psychologically and physically qualified security officers, and who

attended trainings in Civil Defence, Safety, working on detection devices of metals and

explosives and control rooms of CCTV.

D IttiYül.(tl»IùT(? Èli(°II1tl'1'T l'It/t(?It<S1IÈ:

We believe that security personnel are the most important in the field of security manufacturing, thus it's focused on drawing up

training programs to enhance security performance inside a facility.

These programs are as follows:
Physical Protection System

(PPS)

And it is associated with major elements, as follows

SECURITY EQUIPMENT:

A specialized team, which includes security experts and engineers, does a security design after setting targets to be protected, then works on designing a security system that fits the targets. And then after several steps, the following could be recognized:

Specifications required for security equipment.

- Security equipment Sites

- Quantifies of security equipment
- Design of control rooms

All these factors help facilitate our agents choosing a suitable security system in line with the level of required protection and planned budget.

RISK MANAGEMENT

Risk management means the process of measuring and assessing hazards and development of its administration's strategies. These strategies include transferring risks into another party, avoiding risks, reducing their negative effects and accepting some or all their consequences.

Or it can be defined as an administrative activity which aims at controlling risks and reducing them to acceptable levels. More specifically, it is

a process of identifying, measuring, controlling and reducing risks that face the company or institution.

Our Company provides consulting services regarding risk management and develops solutions to contain crises through advisers at the Company's headquarters.

PROTECTION IN A.S.C.

The Company has elements of (P.S.D.), highly skilled at fighting and defending of others. They are trained on methods of containing risks and VIP and convoys protection. They are fully equipped with weapons and other devices, equipped with armored vehicles, and well trained on using them. Our teams work in line with organized and well thought out plans by

the Company's operations chamber. Security and Medical Training: A.S.C. Protection teams are accompanied by (P.S.D.) elements trained on conducting first aid for protection personnel, protected persons and citizens.

PROTECTION IN A.S.C.
